# It Was Like Starting All Over Again

Back in September of 1977 60 students and 14 brave teachers and staff first trudged up the three flights of stairs at the old YMCA building to start a new adventure: St. Francis High School.

That adventure has rooted and grown. Last year 123 students and 18 teachers crammed into almost every bit of available space on the third floor. What had been a comfortable space the first year had become cramped and limiting, even if the school had not grown further.

But grow it did. The Board of Trustees last year made the commitment to increase enrollment to 150 students, and to expand to parts of two more floors to accommodate the growing number of students and programs.
